

Deep States Training

This two weekend course, run by **Nicola Martin**, is for all those “hypno-junkies” who just love the euphoria of entering the deep states of hypnosis and who want to learn the speediest hypnosis techniques around or anyone interested in exploring the benefits of this powerful state for both themselves and their clients.

You will learn how to enter the **Coma State**, the **Catatonic State** and the **Euphoric Deep State** on given **key words**. The benefits of each state will be explored.

The Euphoric Deep State is a state of hypnosis that produces Rapid Eye Movement (“REM”). It is deeper than the state that most hypnotists operate in and is even deeper than the Esdaille and Catatonic State.

This is an immensely practical course and will involve a great deal of “whizzing in and out of trances”. This, in itself, has proved to be most helpful in increasing the confidence of hypnotherapists in their hypnotic abilities. In addition to the above, “Hand to Hand” healing will be experienced at the Euphoric Deep State, which is considered to be a powerful healing arena. However, please note that this course is not for those who are averse to physical contact!
