

# Advanced Meridian Techniques

\*\*\*New course\*\*\*

By popular request, **Deborah Bromley** will be holding an advanced day of Meridian Energy Techniques. The purpose of this day is to consolidate previous EFT learning and expand competence and delivery with these treatments. Many therapists who have already experienced increased success rates using EFT with clients are keen to progress and learn to master EFT at a deeper level as well as incorporate Choices and Be Set Free Fast ("BSFF") into their work with clients.

The day will push boundaries of existing techniques and challenge practitioners to design effective treatment protocols for difficult and deep-rooted client problems such as depression, anxiety and grief. BSFF was designed by Larry Nims who was an associate of Gary Craig (EFT's originator). Larry took the principals of EFT and developed a sophisticated and effective meridian technique that requires no tapping – the work is all carried out in the client's head. BSFF is, therefore, probably, the metaphorical "magic wand" of therapy. Also covered will be:

- ❖ Surrogate tapping techniques
- ❖ Removing client's energy blocks
- ❖ Choices technique – explored in depth

Each participant will have the chance to experience at least one session working with Debbie using BSFF on one of their own issues. In addition, each participant may bring any complex case that they would like to have expert help with in designing an effective energy treatment for their client(s).

**Please note that this CPD course is restricted to those who have previously attended one of Deborah's EFT courses.**
